 18, Nakuru, KE

Skills

Programming Languages:

- Python
- JavaScript

Backend Development:

- RESTful API Design
- Server-side Development
- Application logic Implementation

Frameworks:

- SpringBoot
- React

Architecture:

- Microservices concepts
- Modular system design

Professional Summary

I am a Fullstack-focused Software Engineering undergraduate with hands-on experience designing and building web-based systems and backend services. Strong foundation in API development, database design, and structured software development workflows. Experienced in building scalable applications and collaborating in cross-functional teams. Passionate about System architecture, system integration, and developing intelligent, data-driven systems.

Projects & Experience

- **Medical Management System**
 - Designed and developed a backend-driven system to manage patient records and appointment scheduling.
 - Implemented structured data storage and retrieval logic for secure record handling.
 - Designed REST-style endpoints to support frontend integration.
 - Ensured system reliability through structured validation and modular code organization.
- **Haki-Record Digital OB System (Team Project)**
 - Co-developed a digital Occurrence Book system to improve record accessibility and data security.
 - Contributed to backend logic for secure data handling and structured workflows.

Databases:

- MongoDB
- SQL

Development Practices:

- Version control (Git)
- Structured workflows
- Team collaboration

Other:

- Problem-solving
- System analysis
- Agile teamwork
- Graphic Design

Language

- English
- Kiswahili

- Collaborated in a cross-functional development team using defined development processes.
- Focused on improving system organization and data retrieval efficiency

● **Founder – LM-Graphics (Technical & Digital Solutions)**

- Led client-based digital solution projects involving system design and implementation.
- Led graphic design projects and delivery.

● **Local Service Hub - Operations Assistant**

- Coordinates daily service requests and matches clients with appropriate local providers
- Manages customer inquiries, bookings, and follow-ups to ensure high satisfaction
- Maintains accurate records of transactions, service delivery, and client feedback
- Supports marketing efforts through social media updates and community outreach

Education

(2022 -2027)

- **KISII UNIVERSITY**
Bachelor of Science in Software Engineering
- **(2017 -2021)**
MANGO SECONDARY SCHOOL
Kenya Certificate of Secondary Education (KCSE)

Manhattan
